One day Emperor Sultan was taking a walk in the Royal Garden, when he accidentally **stumbled** upon a small rock. He was in a very bad mood that day. He summoned the gardener and sentenced him to death for not having removed the stone. The poor gardener was distraught at receiving such a **harsh** sentence. He pleaded with the Emperor, but Sultan was **adamant**. So the gardener ran to Badelal in **despair** and begged him to find a way to save his life. The gardener told Badelal the entire story. Badelal wondered how he

could help the poor gardener. He pondered for a while and finally thought of a way. He told the gardener not to worry and then whispered some instructions in his ear.

The next day, the Emperor Sultan was walking in his royal garden. The gardener came up to the Emperor and spat at his feet! The Emperor was shocked at him. He was furious to see the same gardener commit such an act of disrespect. Just then Badelal walked up to the Emperor. Sultan was even more surprised to discover that Badelal had instructed the gardener to spit on his feet. Seeing that the Emperor was furious, Badelal then explained to him as to why the gardener had done such a deed. He told the emperor that the gardener was one of the most loyal subjects who served the king. And it would have been shame on the Emperor's part for sentencing a man to death for such a petty reason as forgetting to remove a small rock.
